

AAMS was conceived to be an organisation operating in the sole interest of its membership.

We recognise that 2021 is likely to place huge commercial pressure on our members' businesses. But despite this, we want AAMS to start with a great deal of fresh energy, excitement and 'can do' spirit.

Thus, we will be waiving the membership fees for the year.

We ask that, in lieu, all members support the organisation via a pledge to invest the fee amount in 'other spend' with the AAMS; such as funding training course attendance, awards entries, and/or their own time in helping to deliver programmes. These actions will enable the AAMS to build a relevant and compelling offer to the membership it represents, and in turn, help to form this exciting new organisation.
